DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15, and 28-38 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record issued to Le fails to teach or suggest a wireless communication system (and its corresponding method) which indicates features not supported by visitor location registers, wherein a gateway location register sends a message for indicating a feature not supported by a first visitor location register for a subscriber in a home location register, and similarly as a second visitor location register sends to the gateway location register a message indicating a feature that it does not support from the second visitor location to the user and together with the determination from the gateway location register of which first or second visitor location register does not support a feature for the user as cited in claims 1 and 28.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Yamaguchi et al, Uchiyama et al, Mizutani et al, Frid et al, and Oh et al (PTO-892 attached) disclose systems related to gateway location register and HLR/VLR.
